

Oxy Marine™

SUSTAINED RELEASE OF OXYGEN FOR AQUACULTURE

Oxy Marine Oxygen Release Tablets enhance aquatic health by supplying essential oxygen, reducing stress, and promoting active feeding in shrimp. With a sustained oxygen release of up to six hours, these tablets maintain water quality by controlling harmful gases like ammonia and hydrogen sulfide.

Content:

Each Tablet contains:

Sodium Perborate monohydrate - 89% w/w
Excipients - q.s

Benefits:

- ★ Rapidly releases oxygen to boost pond water quality.
- ★ Reduces harmful gases like nitrite and hydrogen sulfide in aquaculture ponds.
- ★ Relieves stress in shrimp, promoting healthier growth.
- ★ Prevents mass mortality by enhancing oxygen availability.
- ★ Enhances molting efficiency for healthier shrimp growth.

Dosage:

Resolving Low Oxygen Level / Stress : 1.5 kg / Hectare
Maintaining Good Oxygen Condition : 750gms / Hectare
Oxygen Deficiency: 3-5 Kg/Hectare
For detaching Zoothamnium after moulting: 1 kg/Hectare

Application:

Apply the required quantity of **Oxy Marine** Tablets over the water body to cover the area uniformly or make Suggestions to the aquaculture consultant.

Caution:

Classified as an oxidizing agent avoid contact with skin or eyes and do not breath in wash with water thoroughly if it comes in contact.

Storage:

Oxy Marine must be stored in a cool, dry place away from direct sunlight. Do not store continuously above 40°C

Packing:

Available in 500 gms plastic containers
