

# Micoplus-DS™

## CHELATED COPPER

**Safe and Effective Way to Get Rid of Microcystis / Filamentous Algae / Snails**

Aquatic Feed Supplement

## CONTENTS

**Micoplus-DS** is formulated with a potent combination of organic copper fortified within a gel base.

## BENEFITS

- Effectively inhibits the growth of all types of filamentous algae and snails, promoting a cleaner and healthier pond environment.
- Provides assistance during fungal infections, aiding in the overall well-being of aquatic life.
- Stimulates molting in pond organisms, a natural process that supports their growth and development.
- Enhances shell quality after molting, contributing to stronger and more resilient shells in aquatic species.

Experience the power of **Micoplus-DS** and discover a comprehensive solution for your pond maintenance needs.

## DOSAGE

2-3kg per acre per application, during afternoon hours of the day with aeration is recommended or as suggested by aquaculture consultant.

**Application:** Mix with pond water and evenly broadcast to the pond.

Variations in the product's color will not impact its performance.

## STORAGE

**Micoplus-DS** must be stored in a cool, dry place away from direct sunlight. Do not store continuously above 40° C.

## PACKING

Available in 1 kg plastic containers
